OBJECTIVE

Computer Science & Engineering student looking for internship and placement opportunities to gain industrial-level experience in developing and managing scalable web applications, integrating AI models, GenAI, and LLMs, to understand how things actually work in real time.

EDUCATION

Secab Institute of Engineering and Technology 2023 – 2027
Bachelor of Engineering (B.E.) in Computer Science & Engineering
- CGPA: 8.0/10 (up to 6th Semester)
- Relevant coursework: Web Technologies, Data Structures and Algorithms, Database Management Systems

Secab PU College – PUC / 12th 2021 – 2023
- Percentage: 92.3%

Secab Boys High School, Taj-Bawdi – SSLC / 10th 2018 – 2021
- Percentage: 93.44%

SKILLS

Programming Languages: JavaScript, Python
Frontend: HTML, CSS, React, Figma (Basics), UI/UX Implementation
Tools: Git, GitHub, VS Code
Knowledge Areas: LLM (Theory), Generative AI (Theory)

EXPERIENCE

InAmigos Foundation 06 Jul 2026 – 23 Jul 2026
Web Development Intern [Credential]
- Designed a Figma file and suggested improvements for the organization's website.
- Designed an NGO website concept/demo for the organization.

PROJECTS

Machine Learning Driven Expiry-Based Dynamic Pricing System for Retail Waste Reduction [GitHub]
XGBoost, Fast API, SQLite, Machine Learning, React Aug 2026 – Oct 2026
- Developed a machine learning system to predict product waste risk using inventory, sales, demand, and expiry data.
- Implemented waste-risk ML model and dynamic discount recommendation model based on expiry risk and expected demand.
- Integrated the ML pipeline with Fast API and SQLite to support product management, waste-risk prediction, discount recommendation, and recommended selling price calculation through a React + Vite web application.

Queue Management System
React, Tailwind CSS, JavaScript, Node.js Aug 2025 – Sep 2025
- Developed a queue management system to help reduce waiting time.
- Implemented real-time queue status and pre-booking through token assignment.

VTU Notes and Study Portal
HTML, CSS, JavaScript Jun 2025
- Developed a VTU-notes-inspired study portal where students can access and download VTU notes and previous-year question papers through an organized interface.

Task and Finance Managing Web-App
HTML, JavaScript, React, Tailwind CSS Aug 2025
- Developed a React-based web application that allows users to manage and schedule tasks, maintain task records, and track personal expenses.

CERTIFICATIONS

- JPMorganChase – Software Engineering Job Simulation Credential
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional Credential
- Quantium – Software Engineering Job Simulation Credential

ACHIEVEMENTS

- Runner-up, BUG-BUSTER Competition (college event)
- Best Student Award, 2023
